### International Teamer –School

Aim of the project is to educate Teamer and Trainer from different european countries in the following fields:

- Intercultural and International Youth projects
- Adventure Education and workcamps
- Ecological- , cultural. political and sozial specials in Youth projects
- Young people with spezial needs in Youth projects ( Integration)
- Fund raising and Project development

The project itself should be very practically and offers new methods in Youth working and also gives test fields for it. Now in the first stadium of the project we already planned some actions with friends from **Siberia, Germany, Romania and Slowenia**. Maybe some of You and interested people can join in. In December we want to invite all interested people to a network meeting and partizipate them in planning of new modules in different countries 2010.

### Here are the dates and themes, we already planned:
